HOAGLAND'S NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.

He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling, invented by H. B. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO JUNE 11.

Washington News in General.

CHICAGO, June 10.—The *Tribune's* New York special says the discussion of the San Domingo question is developing a great amount of bad feeling. The debate in Executive session to-day was marked with bitterness and excitement such as few Senators ever before witnessed. The vote last Monday on tabling Schurz's resolution for investigation was a tie, and for once the President gave the casting vote in the affirmative. To-day in the effort to obtain a reconsideration, the Vice President was taken to task by several Senators, who declared it was not decorous for him as part of the administration to stifle investigation of that matter. In debate last evening three or four Senators got into a wrangle almost without precedent for the last ten years, during which the lie was given and taken.

WASHINGTON, June, 9.—The Senate Committee have reported favorably on the bill granting a subsidy to the Australian and New Zealand steam line via San Francisco. So soon as the bill passes tenders will be invited for service, and advertised for 60 days. The contract will only be let conditionally upon contractors obtaining half of the whole amount from the colonies. The question as to termini and ports of call is left to the colonies to arrange with the contractor.

WASHINGTON, June 10.—In the Senate, the bill relative to a land subsidy to the Central Branch of the Union Pacific Railroad was discussed, and Mr. Howard offered an amendment which was agreed upon by both parties. The bill does not grant any lands in Nebraska to the Central branch, but gives such lands to other branches of the company. The bill was recommitted.

A correspondent for the New York *Post* having reiterated the charges against Fitch relative to the Cuban bonds, he was brought before the bar of the House by its order, under arrest, and he stated that he procured his information from the official documents, namely, the sworn statement of N. D. Taylor, before the Grand Jury, by Gen. Butler, though the latter said he did not consider them as directly implicating Fitch, as it did not appear in any way that he responded to the approaches of Taylor.

WASHINGTON, June 10.—Bills were passed making uniform the salaries of Chief Justice and Associates in the Territories and extending for six months the provisions of an act for the presentation of claims for additional bounty.

Red Cloud denies all knowledge of the treaty of 1867, and says it is all a lie. Copies of it have been given to the Indians for interpretation, and another council will be held to-morrow.

Major Ogden has arrived on a mission from the San Francisco Board of Trade, having obtained co-operation with the Chicago Board. He will be heard on Wednesday next by the Ways and Means Committee on the subject of transportation of imported goods from New York and other ports of entry to San Francisco and Chicago in locked cars under the charge of customhouse officers, duties to be paid at their destination.

New York News.

NEW YORK, June 10.—Brig. Gen. Wm. Seebach, Commissary General of Subsistence, on Governor Hoffman's staff, died yesterday in this city.

A contrivance for filling locomotive tenders with water while at full speed was applied successfully yesterday on the Hudson River railroad. A tank sunk beneath the track was filled with water, from which by aid of a pipe dropped at the proper time water was forced into the tender yesterday, the engine going at the rate of 35 miles an hour.

North Carolina Politics.

WILMINGTON, N. C., June 10.—The Republican Congressional Convention of the 3d District, after a strong session and split, renominated Dockery. It refused to endorse Holden's administration. Another ticket will be nominated, or the bolters will support Stafford, conservative.

The mercantile Library lottery office is still open. The managers are still selling tickets to all who desire them, but the demand has fallen off materially, pending decision of the application for an injunction, which will be heard on Monday.

It is reported on the street that the injunction was sued out at the instigation of parties connected with the Catholic Orphan Asylum, who had asked legislation for some privileges similar to those granted to the Mercantile Library, for the benefit of their institution, and failed to receive permission. There is nothing definite known on which to base these reports. The managers declare that they have not the slightest doubt that the petition for an injunction will be denied.

The gold quartz from the newly discovered mines of Date Creek District, between Prescott and Wyckenburg, received here, is creating a decided sensation. It is exceedingly rich with free gold resembling the famous Vulture rock. A company is to be formed comprising a number of Eastern capitalists to work it.

Jno. Miles, an employe at North Point Warehouse, while hoisting rice was caught by the under jaw to the side of the neck by a sharp hook in tackle and hoisted twenty five feet in the air suspended several minutes before he could be let down and the hook pulled out of his flesh. George Wellis has commenced an action in the Fifteenth District Court against Patrick Riley and 110 other defendants, to obtain possession of a tract of land on Mission creek, in the vicinity of Brannan, Folsom and Mission streets, and for $10,000 damages for detention of the same.

Said one student to another, whom he caught swinging a scythe most lustily in a field of stout grass: "Frank, what makes you work for a living? A fellow with your talent and ability should not be caught engaged in hard labor. I mean to get my living by my wits." "Well, Bill, you can work with duller tools than I can," was the reply.

The San Juan Lime Works, closed since the death of Mr. Hibbard, a year ago, have been re-opened by the surviving partners.

The value of taxable property in Corinne, as returned by the City Assessor, amounts to nearly $1,000,000. A little over a year ago the same property was worth $1 25 per acre.

At Hamilton (Nev.), June 4th, the Board of City Trustees has advertised its intention to appropriate $2,229 50 for the purpose of securing the United States patent to the land upon which the city of Hamilton is built.

The Victoria *Colonist* complains that in consequence of large tracts of fine agricultural land immediately around the city of Victoria being held by land grabbers, who will neither turn it to account themselves, or sell, or lease, that it may be turned to account by anybody else, the people of Victoria are practically nearer to California than to their own farmers.

Two car loads of silver ore from Little Cottonwood canyon were shipped recently by the Utah Central District to Jersey City. This is the first ore from the Territory, and it is intended for a trial to find the best place to turn it into silver bullion. The expectation is (says a Salt Lake contemporary) that when the roads are in a condition to permit of easy hauling, fifteen car loads a week will be shipped from the Cottonwood mines.

A dispatch from Helena, Montana, dated June 4, gives this: The thermometer is at thirty-four degrees, and snowing and raining very hard. The operator at Virginia City, who has just returned to that place from repairing the line, reports having found snow from ten to thirty feet deep, in various places between Virginia City and Jefferson bridge. It took him two days to get twenty miles on horseback, on account of the depth of the snow.

A Victoria paper says: "Government has completed arrangements with the Western Union Telegraph Company for the taking over and maintenance of the mainland telegraph line. A new section of line, 35 miles in length, will be built from Sehome, W. T., across the country to intersect the present line at Matsqui, 36 miles above New Westminster. By the construction of this section a difficult and thickly wooded country lying between Sehome and New Westminster will be avoided, communication with New Westminster maintained from Matsqui, and a large saving effected in the cost of repairs.

They have a fine climate at Virginia City, Nevada, as the following from the *Enterprise* of that city, in its issue of May 31, will sufficiently indicate: Sunday evening last it began snowing here and it has kept up its lick pretty diligently ever since. Night before last was a regular howler. Cold? Well, rather. Water pitchers were frozen over in frame buildings, and the awnings were lavishly adorned with long glittering icicles. Nice May weather! The oldest inhabitant hides his diminished head. He hasn't been out since the storm began. The "flowers of May" have a tough time of it on the hills. Who knows whether to-morrow will be the 1st of June or the 1st of January? There is no sleighing yet, but there doubtless will be about the Fourth of July.

The President has accepted an invitation from Senator Cameron to accompany him on a trout fishing excursion in Pennsylvania, leaving Washington June 9th, and being absent four days.

FINANCE AND INDUSTRY.

Late dispatches from Bombay state that nearly half of the cotton shipped from Indian ports, goes by way of the Suez Canal. Only a small portion of this, however, reached England. The bulk of the cotton so shipped goes to the various ports on the Mediterranean.

The Bureau of Statistics has prepared a table exhibiting the number of sail and steam vessels, with the value and tonnage of each kind belonging to the various lake ports, on the 30th of June, 1869. The following shows the total tonnage of a few of the principal ports: Buffalo, 91,326 tons; Chicago, 79,650; Detroit, 60,419; Huron, 12,535; Milwaukee, 37,115; Oswego, 17,578; Sandusky, 10,257.

The transportation of goods in bond is again agitated in Congress by a bill enabling importation to be transported across the continent toward their destination in this way. The importance of this question in its bearings upon European trade with Asia is likely to carry the bill through. It would materially assist our Pacific steamship and railway lines in their competition with others through Asia and Europe. The volume of the trade to be affected must be very great eventually.

Mr. Douglass, Deputy Commissioner of Internal Revenue, has written a sharp letter to a party in Albany, denouncing voluntary spies and self-appointed detectives, who "set traps and snares for honest men for the moiety of $100 fine, and sell their manhood for thirty pieces of silver." Commissioner Douglass has a poor opinion of "men who make a business of hunting up technical violations of law, and entering complaint in the hope of obtaining moieties and informers' shares." And so, we may add, have the people.

The National Bank system, though by no means perfect, is a wonderful improvement on the old mixed system. Under the latter system, the annual marketing of the crops involved, as now, large movements of money between the seaboard and the interior, at the most extortionate rates of exchange. Under the National system, the currency movements involve no such losses. The losses by the old State Banks, through failure, depreciation, &c., from 1837 to 1843, reached the fabulous amount of $813,000,000. If we add to this the misery caused to innocent individuals by these losses, the amount will give us some idea of the cost to the country of the institutions by means of which a few speculators were made rich.

The Pillory and Whipping Post.

A correspondent of the New York *Herald* has recently visited Delaware for the purpose of investigating the facts in relation to the whipping post and pillory in that State, and has written a series of very interesting letters to that journal, abounding in new and apparently reliable information on the subject. According to his accounts the punishments which are so frequently alluded to as "the relics of barbarous ages" are not so very terrible after all. An hour in the pillory is a disagreeable, and, to some extent, painful punishment, but beyond a stiff neck and aching back, and the mortification of the public disgrace there appears to be no serious result. The whipping is done with an ordinary "dog whip" with leather thongs, which is laid on lightly inflicting a stinging sensation but seldom drawing blood. Severer punishments are frequently meted out in the public schools, if the statements of this correspondent are to be believed, yet there are no such universally indignant protests from the people as are raised against Delaware for her system of punishing petty offenders. To compel children to hold a book at arm's length a given time, to stand with their toes upon a crack, to stoop with their fingers upon a spot in the floor, all of these partake of the pillory, and produce precisely the same physical effects, while the corporal punishment of refractory pupils is frequently more severe than is administered to petty thieves in Delaware. It appears, according to official statements, that law breakers who suffer the punishment of the pillory and whipping post are seldom brought up for punishment a second time. The public disgrace, and the additional penalty of wearing for a term of months, a badge signifying their guilt, generally impels them to leave the State, or to seek a livelihood by quiet industry in a manner to outlive the stigma, and the method of punishment which is so earnestly denounced by many, certainly has a most salutary effect. We can see but little difference between the pillory and the chain gang, yet there are many who can see no barbarity in compelling a man convicted of petty crime to wear a chain and ball to his leg, and labor on the public works, to be observed by the people, and be forever after recognized as a felon. It is only a matter of custom and habit after all, and when analyzed and investigated by comparison, it will be found that the Delaware method of punishing petty criminals is not so terribly barbarous, while if crime is measurably stopped thereby, the end would appear to justify the means.

Not the slightest hope is entertained of the safety of the ship *Alaska*, Captain Cavanaugh, which sailed from Shanghae, for Victoria upwards of 150 days ago. Capt. F. Thorndyke, a brother of the owner of the *Alaska*, was the only passenger. The *Alaska* was formerly the British ship *Trebolgan*, was 364 tons register, and about twelve years old.

MONDAY MORNING JUNE 13 1870

Overhasty Indignation

To many it may seem strange that there still are persons who think it infamous that civil rights in this country should be shared by all classes It might be supposed that nobody would at this day deny to any class those rights which enable all to protect themselves equally under the laws in person and property But we notice that a Democratic paper of this State is several years behind the march of enlightened public sentiment on this question In the Pacific States and Territories it has been the fashion to tax and otherwise oppress one class of foreigners—the Chinese,—in an unconstitutional manner and to deny them all means of redress for any wrongs that might be heaped on them Congress has provided a remedy by enacting a law which gives Chinese in this country civil rights —that is such rights as will enable them to make and enforce contracts etc and give them full security in person and property The Democratic paper alluded to speaks of this as if it were an outrage against the 'superior race It evidently fears that there are not civil rights' enough to go round, and that white people ought to have all there are It further says 'By this law the Chinaman is expressly placed on an equality with every other foreigner coming to this country, and the States are prohibited from making any distinction against him in the matter of taxes licenses and immigration Now in point of fact the States never had any constitutional power to make any distinction against him But they have sometimes usurped that power and the object of this law is to enable the Chinaman to defend himself against those unconstitutional and oppressive laws which some of the States and Territories have enacted But, says this oracle, A State can now pass no law imposing any special burdens or exactions upon the Chinaman Of course a State cannot It never could, consistently with the Constitution of the United States But in violation of the Constitution this thing has sometimes been done The present law of Congress is intended to prevent a repetition of it. We quote again "A State can now hamper him (the Chinaman) with no restrictions that do not apply equally to the white foreigner, nor can it obstruct his immigration by any other or greater impediments than those which lie in the way of the unnaturalized German or Englishman or Irishman " Right again, but this law announces no new rule on this subject No State ever had the right or the constitutional power to "hamper the Chinaman "with any restrictions which do not apply equally to the white foreigner ' No State ever had the right to throw any "impediment in the way of the immigration of Chinese, or any other class of foreigners No State ever had the constitutional power to impose any special tax on Chinese, or other foreigners, coming within its borders The Courts have fully settled these questions Nevertheless some of the States *have* enacted laws to discriminate against the Chinese, and the object of this counter law of Congress is to prevent a repetition of these unconstitutional acts, without obliging the Chinaman to carry every case up to the Supreme Court of the United States, in order to enforce his rights against unconstitutional State legislation This law which the *Herald* so fiercely denounces, prevents the States from doing nothing in the case of the Chinaman that they were not already prohibited from doing by the Constitution But it makes effective a prohibition of the Constitution , and to accomplish that, its enactment was demanded.

There is a great deal of loose writing in the Democratic press on this subject They assume that a State has heretofore had a right to bar out Chinese or impose special burdens on them when such is by no means the fact The States, since the adoption of the Constitution, have had no right or power of the kind.

The Michigan Railroad Case

In view of the interest felt just now in railroads in Oregon and the manner of aiding them, a recent decision of the Supreme Court of Michigan touching the validity of bonds voted for railroads, will be deemed worth attention That State by its Constitution is prohibited from loaning its credit over a specified amount, or taxing the people in aid of private corporations But it seems that the Legislature in 1869 stepped over this rule and empowered the town authorities to submit the question of issuing bonds for railways to a vote of the people In the general desire to secure railroads bonds have been voted in the various towns to the amount of about $8,000 000 Nearly $2 000,000 of these bonds have already been delivered to the companies, three-fourths of which have passed into the hands of third parties A case involving the question of the constitutionality of these bonds was taken to the Supreme Court of the State which decided that railways are private and not public corporations and that the Legislature cannot authorize a part of the State to do a thing which the Constitution forbids the State itself from doing This decision has occasioned great confusion in Michigan, and the Governor has called a special session of the Legislature to take some action to meet the requirements of the case The only question that would seem to be troublesome is that regarding the $1,500,000 of bonds which have passed into the hands of innocent purchasers. An amendment to the Constitution will probably be proposed, in order that these purchasers may be protected in their property The rest of the bonds that have been voted will not pass to the companies and there will be no trouble about them

The opinion is becoming general that there is wisdom in these restrictions upon the power of States and municipalities to pledge their credit and run in debt for railroads And there is a strong tendency in those States where no such restrictions exist to provide them Such a feature has just been inserted in the new Constitution of Illinois It would seem, if we may judge from the tendency of public opinion that the Constitution of Oregon is not behind but rather in advance of the times, in this regard

The Albany *Democrat* says Oregon is saved and makes a great ado about getting a majority only *one fourth* as large as that of two years ago At this rate of saving' yourselves where will you be in the next election ? Prepare to come down for the Republican party has already begun the next campaign

The North Pacific railroad bill which passed Congress a few days ago authorizes the company to build the road to Puget Sound via the valley of the Columbia river, with a branch across Cascade mountains to Puget Sound

The Presbyterian Church

The first General Assembly of the Presbyterian Church of the United States since the ratification of the act of reunion between the branches known as Old School and New School met at Philadelphia on the 19th ult The body is representative, being composed of delegates, clerical and lay elected by the Presbyteries, the former to represent the Church in its corporate capacity the latter to represent the congregations both maintaining the unity of the Church in its essential [illegible] while watching [illegible] individual [illegible]

We notice on the roll of the Assembly the names of Rev Joseph A. Hanna, of Eugene City and General E B Babbitt our well known and respected fellow citizen as Commissioners from the Presbytery of Oregon It appears that the General Assembly has directed that all the churches and Presbyteries belonging to it on this coast shall be embraced in one Synod to be denominated the Synod of the Pacific the first meeting of which shall be held in San Francisco on the 12th of July next and be organized by the Rev Dr Lindsley of this city

We don t hear that Ben Holladay has discharged his white laborers and put Chinese at work on the railroad, as it was charged repeatedly that he was going to do the day after the election Something like one hundred yards of chinaphobic editorials have been spent in vain How this world, or rather the Democratic portion of it, is given to—romancing!

We are gratified to ascertain that Judge Boise is positively re elected The contest in his district was very close His majority is small, but sure The colored vote saved him We hope that Judge Boise will evince less disposition to oppose negro suffrage hereafter

Two years ago the Democratic majority west of the Cascade mountains was about 300 This year the Republican majority in the same section is about 450

A dispatch from Oakland dated Saturday, gives the following Oakland 11 —The vote of Empire City Coos county the only precinct heard from is as follows Wilson 95 Slater 49 Palmer 59 Grover 47 Elkins 57 Chadwick, 50 Legislative ticket—Watson (Rep) 56 Simpson (Rep) 53 Lockhart (Dem) 42

It will be seen that Garfielde has in Pacific county 97 majority over Democratic opponent Last year he had but 42

POLITICAL NOTES

Four negroes are reported to have voted the Democratic ticket at Rochester whereupon they were treated to a champagne supper by the Democracy of that city

Ex-President Johnson is doomed to notoriety He has retired to the privacy of a farm near Greenville Tennessee but the newspapers are making him a candidate for the United States Senate and otherwise publishing him to the hope of drawing him once more into the political whirlpool

Judge R [illegible] Carpenter formerly of Chicago and well known during Buchanan's administration as a prominent member of the 'Dunite Democracy of Illinois is acting with the new Citizens party of South Carolina and the Charleston *Republican* thinks it not improbable that he will be the candidate of that party for Governor of the State

The St Louis *Republican* the leading Democratic paper of Missouri says that only the Republicans and four or five Democratic papers want the Democrats to put a State ticket in the field for the fall election Every Democratic member of the last Legislature it says and every member of the Democratic State Central Committee every Democratic politician of standing and influence, and with few exceptions the Democratic press of the State oppose holding a convention

Mr Abram W Fox a full blooded African, has purchased an interest in the Detroit *Free Press* the leading Democratic paper of Michigan, and has become one of its chief editors It is a question of taste but looking at the past record of that paper we should judge that, in the new association the African had got the worst of it He must be careful how he looks over the old files or he will encounter a fragrance much ranker than the Democracy have been in the habit of charging as a distinctive characteristic of his race

Mr G W Chaddock, Chairman of the Democratic State Central Committee of Kentucky in reply to a question from the Chairman of the Democratic Committee of Mercer county as to what is the programme in reference to the admission of negro voters who profess to be Democrats in the Democratic primary elections, says after a long rigmarole on the fifteenth amendment that no programme has been prepared , but gives it as his opinion that they ought not to be admitted or recognised at the primaries, but should be permitted to vote the Democratic ticket if they desire to do so Possibly they will vote that ticket, but probably not much

She paused and a thrill ran through the audience Again the rich tones of the winsome woman rolled over the expectant people as she repeated the question "Why was I born?" And again she paused that the due impression might be made upon her hearers before she answered her own question ' Why was I born?" she asked once more, in touching and almost painful accents, when a wicked boy in the gallery shouted, "I give it up! HOMES FOR THE IMMIGRANT The following is the text of a letter received from an intelligent observer and an old citizen of Oregon

I have [illegible] taken some pains to explore the wild lands [illegible] Washington Territory [illegible] Vancouver [illegible] [illegible] Buffalo [illegible] [illegible] Washington Territory [illegible] for an average depth back [illegible] [illegible] of [illegible] These lands are [illegible] remarkably rich form [illegible] It is covered with a luxuriant growth of the [illegible] stock feed [illegible] juicy mountain grasses [illegible] timbered lands [illegible] on the Columbia to the magnificent [illegible] The line of the North Pacific Railroad and the Territorial road from Vancouver to Monticello pass through [illegible] A large portion of the timber has been burnt off by the annual fires which have swept the country since 1863. Large tracts of the land are now almost destitute of timber At present it is the finest stock range I ever saw Those who want homes had better locate themselves for within the ensuing summer and autumn the survey and location of the North Pacific Railroad will be made after which it will be too late By the terms of the land grant these lands will be withdrawn from the market so soon as the company locate the road

ORO FINO THEATER —The Invisible Prince and Box and Cox were played at the Theater, Saturday evening In the latter Bates and Melville were particularly good and particularly laughter provoking as Box and Cox, while Mrs. Bird played Mrs Bouncer in excellent style. But the great card of the evening and of the season thus far, was the Invisible Prince an extravaganza of the most laughable character It is a mixture of burlesque opera, burlesque comi-tragedy, tragic comedy comic burlesque and everything else connected with the stage, together with beautiful scenery, startling and ludicrous incidents and rapidly changing situations The most crabbedly confirmed misanthrope could never see it without a good round hearty laugh We are glad to announce that it will be repeated to night.

THE MINES OF EASTERN OREGON —The *Herald* says: A gentleman just arrived from the [illegible] portion of the State reports the mining interests to be flourishing this year In the various camps money is plenty and trade flourishing The Burnt River mines prove to be richer than was generally anticipated and give promise of remaining the chief industrial pursuit in that portion of our State for years We have similar reports A gentleman writing to us from Dealy's [illegible], Union county says that the Union Hill claim yielded at a recent clean up $15 per day to the hand The claim is one of the largest in Eastern Oregon

DEATH OF A PRINTER AND EDITOR.—Frank R. He was already dead

THE TURN VEREIN PIC NIC We hear from those who attended the Turn Verein pic nic, yesterday that about two hundred and fifty people attended, and that the affair was a very pleasant one in all respects The party returned about sunset the most of them wearing [illegible] countenances which we take to be good evidence of the excellent management The [illegible] were accompanied by the 23d Infantry Band

CITY.

NOTES FOR THE IMMIGRANT.—The following is the most of a letter received from an intelligent [illegible] and an old citizen of Oregon:

"I have of late taken some pains to explore the wild lands of Clarke county, Washington Territory, especially so much of them as lie fronting the Columbia river from Vancouver to Martin's Bluff, a distance of about thirty or thirty-five miles, and I am of the opinion that no timbered country can be found in Oregon or Washington Territory superior to it for grazing or agricultural purposes, say for an average depth back from the river of about four miles. The soil is remarkably rich for mountain land. It is covered with an abundant growth of the choicest stock feed, such as wild pea vine, clover, nimble oil and other soft and nutritious mountain grasses indigenous to the high timbered lands of the North Pacific coast. It has a magnificent outlook on the Columbia to the south and west. The line of the North Pacific railroad and the Territorial road from Vancouver to Monticello pass through it. A large proportion of the timber has been burnt off by the fires which have swept the country since [illegible] large tracts of the land are now almost [illegible] timber. At present it is the finest [illegible] I ever saw. Those who want homes [illegible] locate themselves, for within the ensuing year, [illegible] survey and location of the North Pacific Railroad will be made, after which it will be too late. By the terms of the grant these lands will be withdrawn from the market as soon as the company locate the road."

OREGON.

People are already flocking to the Soda Springs near Wilhoit's, in Clackamas county, for summer recreation.

The Albany *Register* says: "There is some talk of a new paper in Albany soon. It will probably be a bedrocked, and advocate repudiation."

The *Farmer* has a timely article advising prudence and care in order to prevent fires this summer in our forests. Tourists in the mountains should take heed.

The *Statesman* learns from Mr. E. C. Cartwright that there is a prospect for an abundant crop of flax seed this season. There are about 9,000 acres sown in this valley; 3,000 for the use of the Pioneer Oil Mills, and the rest for the companies represented by Mr. Cartwright.

The *Statesman* has the following obituary notice of the deceased Salem *Stinkpot*: "Our cotemporary who indulged in such stalwart lying and so much abuse, and furnished more infamy than anything but Democracy could dare to be responsible for, is dead. It is no credit to any one that it lived, but its career illustrated the fact that its party cannot be nauseated, and no course of policy can disgust it."

The *Statesman* tells in the following "how the thing was done:" Our political opponents have been charging us with corruption and fraud and accusing us of being guilty of crimes innumerable, and all the while they themselves have been perpetrating the most abominable frauds, using money to corrupt the elections, restraining the votes of many Republicans by rejection at the polls and forcing in the votes of Democrats whose claims were void and whose votes were illegal. It is astonishing how great the Democratic majorities are in Democratic counties, where the polls are subject to Democratic manipulation and the wire-workers of the party had sway without formidable opposition. They perpetuate themselves in power and know every trick by which to make their power count at the polls.

Down in Alabama they have occasionally some strong political "discussions." A Democratic paper recently asked the question: "If the devil should get his dues, what would become of the Radicals?" To which a Republican cotemporary of the same State replied: "They would be passing water through the iron gates of Hell to thirsty Democrats. Ask us a hard question?"

An additional lot of those handsome suits worn by everybody, both heavy and light weight, was received by Kohn & Fishel, No 91 Front street. They are equal to the best custom-made and pleasing to all nice that wear them. They also received an extra fine lot of striped calico shirts and Star white shirt. Their stock in clothing is the largest and finest in Oregon and sold at extreme low prices.

The Wear and Tear of Business Life.

The cares and labors of business life are apt to tell severely upon the health and constitution of the ardent, energetic business man, and when the need of a medicinal sustaining agent is felt, stimulants that cause only a temporary exhilaration, and leave the system in a state of partial collapse when their first effect has passed off, are too often resorted to. As certainly as fire leaves behind it a residuum of ashes, the use of the adulterated liquors of commerce produces premature exhaustion and decay. Touch them not. Tone and regulate the overtaxed vital machinery with Hostetter's Stomach Bitters. In that wholesome elixir, the alcoholic element, which is the purest derivable from any source, is tempered by the choicest tonic, aperient, anti-bilious and anti-febrile vegetable extracts and juices. To strengthen, recruit, solace and purify the system is the mission of this great vegetable specific. When the stomach is in a healthy state the bile flows regularly, the bowels perform their offices properly, and the telegraphic fibres of the nervous system are in perfect working order, an enormous amount of labor can be borne without labor or inconvenience, and the direct effect of the Bitters is to promote this vigorous condition of the functions upon which the nourishment of the body, and its power of endurance mainly depend. The great tonic and alterative is, therefore emphatically recommended for its remarkable strengthening properties, to all upon whom the responsibilities of life press heavily, and who feel like fainting under the burthen. A lively appetite, a splendid digestion, elastic spirits, and a marvellous ability to withstand fatigue, are among the blessings justly ascribed to the renovating operation of this palatable and powerful cordial, indeed there is nothing in the materia medica that can be compared with it.

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851,
STEAM POWER, NOS. 525 AND 527 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities, CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can discredit nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

BEWARE OF COUNTERFEITS.

CURRENT NOTES

[illegible] has been issued [illegible] National [illegible] next [illegible] to take [illegible] thereupon as shall be [illegible] the Executive [illegible] of the National Convention which met in St Louis last December. The [illegible] removing the Capitol [illegible] may as well be dropped.

[illegible] Geary of Pennsylvania [illegible] Admiral [illegible] strongly supports [illegible] prompt and liberal legislation by Congress and the States for the revival [illegible] navy. He believes [illegible] the establishment [illegible] ship building yards by the Government [illegible] the seeking of revenge for the destruction [illegible] commerce by British vessels during the rebellion in a more honorable way by driving British [illegible] from the ocean by the [illegible] ships.

Virginia claims that the General Government owed her on the 31st of December 1864 on account of the war of 1812 $153 [illegible] and that the interest has now increased the sum [illegible] over $ [illegible] 000 000. The Richmond [illegible] says that if this claim can be made good Virginia can build a new Capitol and have enough left for a good foundation for an educational fund. The Government should pay this when Virginia pays the Government for the charges it has been at on account of her rebellion.

The Secretary of the Treasury has sent to the Senate the report of the special Commission proposing an appropriation of $300 000 for the construction of five new steamers for the revenue service to supplant five now in use but inefficient and for the sale of six sailing vessels. It is proposed to have twenty steamers and three sailing vessels for the Atlantic and Gulf three steamers and two schooners for the Pacific and four steamers for the lakes. Growth of Immigration

[From the Chicago Republican.]

The tide of immigration continues to flow in from Europe without abatement. Each week brings its shiploads of people seeking the "promised land"—for America is that and nothing less to the toiling millions in Ireland, England and on the Continent. Since the 1st of January last, 75 530 alien passengers were registered at Castle Garden New York. These were composed of Irish Germans, and English, with a liberal allowance of the Scandinavian element. The records show that the latter generally go to Nebraska, Minnesota, and Wisconsin. The Germans go in great numbers to Illinois, Iowa Michigan and Ohio. Many of the English settle in Pennsylvania. The Irish settle in every State in the Union and seem to have no decided preference for any particular section of the country. There arrived at New York, during the week ending May 20 9,636 passengers, of which 4,730 embarked at Liverpool. Immigration this year bids fair to exceed that of last, which was larger than that of any year since 1854. In regard to the comparative nationalities of these immigrants, the Irish and Germans bear away the palm. The following tables, from the books of the commissioners of Immigration give the statistics of these two nationalities from Jan, 1, 1847, to May 21, 1870—

	From Ireland	From Germany		From Ireland	From Germany
1847	52 945	53 180	1859	32 652	28,270
1848	98 061	51 970	1860	4 330	37 890
1849	112,591	55,601	1861	25 [illegible]4	27,139
1850	117,038	45,535	1862	32,21[illegible]	27,740
1851	163 306	69 919	1863	92,157	35 002
1852	118 131	118 611	1864	89 399	57 446
1853	113 164	118 544	1865	[illegible]	83 451
1854	82,302	176 986	1866	68 [illegible]	106 [illegible]
1855	43,043	52 892	1867	65,134	117 591
1856	44,276	56 113	1868	47 571	101 989
1857	57 119	80 974	1869	66 104	99,605
1858	25 0[illegible]5	31 874			
				1 643 209	1 633,244

For the year 1870 to Saturday May 21 there arrived of Irish 24 461 of Germans 25,500. Adding these to the above tables we have a total of Irish, 1 667 470 of Germans 1,758 744, the Irish outnumbering the Germans by nearly 9,000 making allowance for errors in compiling these statistics. While these two races keep so nearly together as to the numbers emigrating to this country their destinations are widely different. A large number of the Germans go West, buy land, and become the owners thereof and are exceedingly thrifty in the accumulation of property. The Irish for the most part, remain in the large cities, and live, sometimes for many years as day laborers. Could the Irish immigrants be pushed onward to the West and South, and be persuaded to buy the cheap lands there, it would be much better for them and for the country at large. It is very certain that the tide of emigration is destined to flow to the United States for years to come. To direct it to our unoccupied lands is one of the problems which should engage the attention of the Commissioners of Immigration. The cities are generally over stocked with laborers of all classes. This is particularly true of the seaboard cities in which thousands of penniless immigrants are landed every week. Only get them upon our vacant lands, they become productive laborers, and besides doing well for themselves, they add directly to the wealth of the nation.

SMOLLETT'S TRAVELS —Few books have ever been more heartily abused than Smollett's Travels, and of late years have been less read. The faults of the book lie very plainly on the surface. It is written in a bad temper to begin with and with a decided willfulness that rather enjoys giving offense. On all matters appertaining to art, it is invariably provoking and usually wrong. The coarseness of the novels is in it with comparatively little of that boisterous humor which in the novels redeems its coarseness. To use the slang of the day—for slang is by no means confined to the vulgar—it is essentially the work of a Philistine—ay and a man who decidedly glories in Philistinism. All this may readily be granted. Squeamish people will find the book unsavory connoisseurs will declare it heretical and lovers of the picturesque had much better give it a wide berth. To sum up its defects it was written by a man whose life had been comparatively a failure who had just been beaten down by a heavy domestic sorrow and whose health had failed him a man who had all the prejudices of his contemporaries and many of his own who was irritable violent and coarse. Sentimentally journeying Sterne could have fallen in with no [illegible] more offensive. When one walks through life in a genteel way with an embroidered handkerchief at one's eyes, it is [illegible] to run against such a [illegible] as [illegible] such a lump of mere raw manhood [illegible] bravery and cynical kindness and [illegible] had taste. Hence the mel[illegible] wanderer starts aside [illegible] declines [illegible] such an [illegible] fellow traveler [illegible] Dr Smollett to complain of being badly fed by [illegible] innkeeper [illegible] good cry over the famous dead donkey. But [illegible] shall figure [illegible] as Smelfungus all the complaint which he tells to the world [illegible] had better have told to his physician. There was a great deal of truth [illegible] the defects of the book have already been confessed but it seems quite worth while to call a witness on the other side a bigger man than either Sterne or Smollett Sir Walter Scott. [illegible] Sir Walter without offence to the memory of the witty and elegant Sterne it is more easy to assume in composition an air of alternate gaiety and sensibility than to practice the virtues of generosity and benevolence which Smollett exercised during his whole life though often like his own Matthew Bramble, under the disguise of peevishness and irritability. Sterne's writings show much flourish concerning virtues of which his life is said to have produced little fruit; the temper of Smollett was like a lusty Winter, frosty but kindly. Perhaps "Smelfungus" may be considered as sufficiently avenged.—*Macmillan*.

The Linn County Teachers' Institute

[illegible] met on the 4th of June. It was attended by a fair representation of the citizens of the county and was characterized with unusual interest. The addresses delivered by Rev E R Geary and Rev Mr Butcher were able and instructive. The discussions were marked with a generous good feeling and with a zeal that showed an earnestness in the cause of education. A new [illegible] changing the name to the Linn County [illegible]. TO THE UNFORTUNATE.

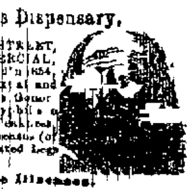
NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases such as Gonorrhea Gleet Stricture Syphilis in all its forms Seminal Weakness, Impotency etc. Skin Diseases (of [illegible] standing) and Ulcerated Legs successfully treated.

Horrible Diseases!

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences or from virus absorbed into the system. Look at their pallid emaciated and disfigured faces and their broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians friends attend to those who are suffering with any of these horrible life-destroying maladies so that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted or to those who are interested in the welfare of their friends to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

Seminal Weakness

Seminal Emissions the consequence of self-abuse. This solitary vice or depraved sexual indulgence is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms unless combated by scientific medical measures viz. Sallow countenance dark spots under the eyes, pain in the head, ringing in the ears noise like the rustling of leaves [illegible] rattling of chariots uneasiness about the loins weakness of the limbs confused vision, blunted intellect loss of confidence diffidence in approaching strangers a dislike to form new acquaintance a disposition to shun society loss of memory hectic flushes pimples and various eruptions about the face, furred tongue fetid breath coughs consumption night sweats monomania and frequently insanity. If relief be not obtained should apply immediately, either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtain immediate relief.

DOCTOR GIBBON is responsible and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms length of time the disease has continued and have medicines promptly forwarded free from damage and curiosity to any part of the country with full and plain directions for use. [illegible] Ten Dollars sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus written certificates dupe the unwary. Some of the self-styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen and became too lazy to work at their trades. Some are tinners the shoemakers, newspaper carriers, intelligence office keepers etc. Look over the San Francisco Directory and you will not find their Medical Institutes in it but you will find their former occupations. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing and may save you many regrets for as advertising physicians in eight cases out of ten are bogus there is no safety in trusting any of them until you know who and what they are. Dr Gibbon does not deceive people by exhibiting bogus titles certificates, pretended patient's letters etc. Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he professes to cure.

Address DR J F GIBBON 623 Kearney street corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 252.
